

## Which Option is Right For Your Business?

Option	Premise	BYOL	Subscription
<b>License type</b>	Perpetual	Perpetual	Time Based
<b>User Type</b>	Concurrent	Concurrent	Concurrent
<b>Summary</b>	Works on your networks with products you own	Move your GoldMine (and other apps) to commercial hosted network	Get your crm started with less set up
<b>Benefits</b>	<p>Lowest cost over time</p> <p>Local integrations</p> <p>Faster Performance</p> <p>Control over data</p>	<p>Reduce reliance on in-house IT</p> <p>Run other apps that may not be subscription based</p>	<p>Easier set up</p> <p>Add subscriptions for other products</p> <p>You can move your files to premise later if you want to</p>
<b>Great for:</b>	Inside users, integration with other applications	Want to continue using application but want to minimize it infrastructure issues	Offices with lots of remote users or no server
<b>Compared to other products:</b>	<p>All in one and most affordable</p> <p>Better integrations</p>	<p>You move your files to cloud</p> <p>Run other apps with GoldMine in one subscription</p>	<p>Same application and files</p> <p>Add other applications to same subscription - can't do that with other SaaS solutions</p>
